Stargazers Class November News!

Every month I will choose a few photographs to share a bit from all the fun activities and learning we have been doing at Rainbow Valley in the Stargazers class.

This is us exploring mixing colors for the very first time! Look how intrigued we are! It's very interesting!!!

Dear Parents,

Last month was full of new learning activities and fun as we covered many topics with your children such as Shapes, Color and Number, The Hungry Caterpillar story and Halloween.

The children discovered lots of new shapes and started to focus on number counting and mixing colors.

Also, thank you all for contributing to our Halloween Party with such a range of amazing scary costumes!

Next month we will start the month with the Transport topic for two weeks and after the Nursery Rhymes topic.

The transport topic will introduce the children to various types of transport,

road safety and to recognize the colors in the traffic lights.

After the Nursery Rhymes will improve the children's listening and rhyming skills where active learning can be continued at home with the

Communication

If you would like to communicate with me and you cannot come to the Nursery, don't forget to use the Kinderly App where I will do updates on what we did during the day and post daily photos.

If you prefer to see me, please drop an email at info@rainbowvalleynursery.com to set a time to meet.

I am always available at the mornings drop off to answer questions you may have and give support and advise on your child's development.

Let's make it a successful month by working together!

Kind Regards,
Ms. Shelley

The workshop will help you understand children's own experiences, perceptions and understandings of their world around them, behaviors and motivation for certain behaviors that makes sense when you consider things from a child's perspective.
