Sunshiners Class March News!

Penny and Harvey Sharing a Healthy Snack

Penny Exploring Paint

Raed playing with his Grass Hat

Aasir Sitting up the Bumboo Chair fascinated with the Ball

Dear Parents,

The Term is nearly coming to an end. Sunshiners were amazing last month, I am very pleased to see them growing up so quickly. Raed has just turned one-year-old last week. Happy Birthday, Raed!

During the month of February Sunshiners explored different aspects of 'The Jungle' and 'Healthy Eating' thru stories and songs and play activities such as creative sensory experiences by exploring paint and grains. Sunshiners favorite activity was tasting and the different texture of fruits and vegetables.

Next month, the topic will be "Books and Stories". The stories that Sunshiners class will be doing this month are the Goldilocks; Three Bears and The Rainbow Fish. We will extend their learning with sensory exploration, Puppet Show Story Telling, the Junior Master Chef and we will have water play as messy play activities.

This month the colour focus will be colour Blue and we will be using more natural materials for sensory play.

We are looking forward to continuing to watch your precious ones grow and amaze us! I will always be available in Kinderly and at the Nursery to give you update about your child development.

Kind Regards,
Ms. Michelle
