

# SUNSHINERS OCTOBER NEWSLETTER

Dear Parents,

September has just flown by. Everyone seems to be adjusting well and is quite settled.

Last month, the children explored things related to 'my family' and 'favourite things'. The children used their picture in activities to make a school bus. We are very proud to display it outside the classroom. Some other activities were exploring treasure baskets, painting and learning to manipulate small objects which helped to enhance children's fine motor skills and hand-eye coordination.

Next month topic for Sunshiners includes 'ABC, Shapes, Numbers and Colours' which will allow me to have a variety of tabletop sensory activities encouraging children to cruise around. Also, messy play it has been a hit last month for our class, therefore we will continue to explore our five senses. We have now started on every Wednesday to have skilled based Music Class aiming at encouraging body movements such as arms and legs, changes facial expression, increase their attention by listens to familiar sounds, words, or fingerplays, as well as children being able to recognize and be responsive to the music.

Halloween is right around the corner and will be making spooky and cute arts and crafts for the decorations.

On the 26th of October Magic Phil will be in the Nursery for a Halloween Theme Party and everyone is invited to join in. Please bring in your little to dress to impress Halloween Costume on 31st of October.

I would like to remind the parents to label all your children belonging and always bring at least 2 spare clothes in the bag.

I will be always available in the Nursery and kindly should you have any queries about your children progress and development.

Regards,

Ms. Michelle
